

Medicare Compliance

Optimise your Medicare billings

Improve your practice efficiency

Is your clinic not breaking even or struggling to make a profit? Medicare compliance is one of the main reasons a clinic may not be performing efficiently. Alecto Australia are experienced in reviewing a clinic's Medicare billings to determine billing areas of improvement and services which are not being billed for appropriately.

We will review your current billing structure and determine areas where you can improve your profit margins by providing billing protocols. We can also introduce a medical educator who can provide services to your clinic for appropriate billing masterclasses.

What's involved
